

## LOFT REPORT – FEBRUARY 2014

1. Intake at 17<sup>th</sup> February 2014 = 561.
2. Intake open till end of March.
3. We are (touch wood) blessed with very good health with this seasons intake.
4. Pigeons are in good health – Pigeons from abroad are in a very good condition, feathers are soft and shining. S.A. pigeons are in all stages of moulting at the moment and the lofts are full of feathers every morning.
5. Cocks and hens in the open sector of the lofts are separated at the moment and they are enjoying open loft every second day.
6. New intake still under the net sector and enjoys open loft every day.
7. If you haven't heard from us your birds are all still in the loft and in good health.
8. All birds in the open sector were vaccinated twice for paramyxo virus and once for pocs.  
At least 2x cancer, 1x coxi, 2x worms etc.
9. Best chance, best odds to win big money in our loft in the best time racing in South Africa.
10. Speak to you soon.
